More so than any other medium, cinema has shaped our expectations of potential alien life and visitation. From *The Day the Earth Stood Still* and *Close Encounters of the Third Kind*, to *Battleship*, *Prometheus* and beyond, our hopes and fears of alien contact have been fuelled by the silver screen. But what messages does Hollywood impart to us about our possible otherworldly neighbours, from where do UFO movies draw their inspiration, and what other factors - cultural or conspiratorial - might influence their production and content? *Silver Screen Saucers* is a timely and revealing examination of the interplay between Hollywood's UFO movies and the UFO phenomenon itself, from 1950 to present day.
